

# Environmental Lens of EESG

## Biodiversity

- Deforestation
- Impact on sensitive areas
- Reclamation plans
- Type of operation

Waste

Ore

Backfill

Ore Body

Access Tunnel

Ore Processing Plant

## Carbon Footprint

- Carbon intensity and emissions trend
- Renewable energy leveraging
- Energy intensity

## Water

- Water intensity of operation
- Local communities adversely affected
- Controversies being managed/addressed

## Tailings Management

- Potential impact of failure
- Construction method
- Height
- Volume
